

## A Memoriam...

The Organ Donation & Transplant Association of Canada (ODTAC) is devoted to improving the lives of Canadians in need of transplants by raising public awareness and funding cutting edge medical research.

The impact of your generous gift made "In Memory" of a loved one, friend or colleague who has passed away is as long-lasting and enduring as any gift can be. For the next three years, **every \$1 donated** to organ regeneration research **will be matched by an additional \$4** from a funding partner.

## Planned Giving...

ODTAC is dedicated to saving lives in Canada by increasing the number of organ donors and providing financial assistance for medical research. By making a planned gift you have the opportunity to ensure a precious legacy to Canadians in desperate need.

A charitable will bequest is an effective method to reduce estate taxes. Your gift qualifies for income tax credits, which helps make the gift less expensive to give and your estate will receive the advantage of generous tax benefits.

A simple provision in your will to leave some of your assets to ODTAC will give you satisfaction in knowing that the most innovative and progressive research is being funded and that people on organ donation waiting lists can hope to receive the gift of life. Through our *Legacy for Miracles* program, more organs can become available and lives can be saved.

## Ways to give:

- Bequests/gifts by will
- Charitable gift annuities
- Charitable remainder trusts
- Endowment gifts
- Gifts of life insurance
- Gifts of publicly traded securities
- Sign your donor card and make your family aware of your wishes

*Give your loved ones the peace of mind that will result from your wise planning.*

\*ODTAC strongly recommends professional advice to ensure that your financial goals are measured and your planned gift is tailored to benefit you and your loved ones.
